SUMMARY

Results-driven professional with excellent communication abilities and a proven track record of swiftly learning and adapting to new technologies. Possesses experience in technical support, documentation, and event coordination, gained through active participation in various organizations. Exhibits initiative, problem-solving skills, and effective collaboration in team settings. Eager to leverage technical expertise while continuously seeking growth opportunities.

EXPERIENCE

Technical Committee 2024 - Present
Valenzuela Information Technology Society (School Organization)

- Assisted in setting up and managing live streaming operations during the School Foundation Day event.
- Provided technical support for speaker presentations during a Red Cross seminar, ensuring smooth and uninterrupted sessions.
- One of the lead Technical Committee for the organization’s Game Convention, overseeing setup, equipment, and technical coordination.
- Served as a committee member for the organization’s Networking Competition, supporting event setup and technical requirements.

Lead Documentation & Frontend Developer 2025 - Present
BlockGo: Blockchain-Based Grade Records Management System (Capstone Project)

- Led the documentation for the capstone project, handling the majority of research, technical writing, and report preparation.
- Managed and organized project documents, ensuring accuracy, clarity, and alignment with academic standards.
- Coordinated with team members to gather inputs and integrate them into a cohesive final documentation.
- Worked as a Frontend Developer, contributing to the system workflow and business logic implementation.
- Designed the system interface and user experience using Figma, ensuring a clean, user-friendly, and responsive design.
- Assisted in planning and structuring the overall system design, functionality, and user navigation flow.
